

AVENTUS

Any plans for the future?

We already have – with you.

We are AVENTUS!

Become a part of our team in the Customer Service department as:

Service technician (m/f/d) electro engineering

Warendorf • full-time

Your package of tasks:

- You are responsible for the installation as well as the commissioning of our new machines.
- You implement performance-kits on existing machines in customer companies worldwide.
- You carry out regular maintenance and inspection duties.
- You are the first point of contact regarding possible optimizations and problem solutions on site.
- You use your extended technical knowledge to train our customers.
- As an expert, you provide our customers with process and procedural support.

Your qualifications and skills to fulfill this job:

- You completed vocational training in the field of electrical engineering - for example as electrician or electronics technician (m/f/d)
- Advanced training as a technician or master electrician (m/f/d) is desirable, but not a must.
- Several years of work experience would be ideal. However, you can get just as far with us with less experience and a lot of commitment.
- (Basic) Knowledge of PLC-programming would be a plus but is not required.
- You enjoy supporting our customers in Germany, Europe and worldwide.
- German skills are an advantage.
- You are known for your communication and teamworking skills, as well as being able to work independently.

A pallet full of benefits:

- Long-term, secure employment in a familiar working environment.
- Tailor-made induction phase and further training.
- Performance-based remuneration, in accordance with the „Tarifvertrag Metall und Elektro NRW“ (collective agreement) – including vacation and Christmas bonuses, further special payments, 35-hour week and 30 days' vacation.
- Everything for your work-life balance: flexible working hours, mobile working & co.
- Modern, ergonomic and air-conditioned working spaces.
- „HAVEN“ – our canteen with an outside patio, extensive breakfast and changing lunch menus.
- Parking and storage areas for (e-)cars, (e-)bikes and motorcycles, including charging facilities.

Severely disabled persons and persons of equal status will be given preference if equally qualified.

Warendorf, 11.07.2024

Perfect combination of competence and technology

You will get more than just a job, when you are joining AVENTUS in Warendorf (Germany).

Dynamic, young business spirit meets 250 years of experience and continuous growth.

As a joint venture of world leading HAVER & BOECKER and WINDMÖLLER & HÖLSCHER we stand for competence and technology as well as know-how in packing machines for free-flowing bulk materials.

We build and sell packaging systems worldwide.

Your start with AVENTUS
